“You must refrain from the illegal possession and use of drugs, including prescription medication not prescribed in your name, and must submit to urinalysis or other forms of testing to ensure compliance. It is further ordered that you must submit to evaluation and treatment, on an outpatient or inpatient basis, as approved by the U.S. Probation Office. You must abide by the rules of any program and must remain in treatment until satisfactorily discharged by the Court. You must alert all medical professionals of any prior substance abuse history, including any prior history of prescription drug abuse. The U.S. Probation Office will supervise your compliance with this condition.”

On March 22, 2023, the undersigned officer was informed that Goodman submitted a random urine specimen at the residential re-entry center on March 21, 2023, which tested positive for fentanyl. Goodman ultimately admitted to obtaining the fentanyl from another resident of the facility.

U.S. Probation Officer Action:

The Probation Office recommends no Court action be taken at this time. The Probation Office will continue to monitor Goodman's use illicit substances through increased random urine screenings. In addition, Goodman is currently engaged in co-occurring services with Legacy Treatment Services, and they are working with the Probation Office on an appropriate treatment plan moving forward. As of now, Goodman is scheduled to meet with the psychiatrist on April 5, 2023, via telehealth, and will be reporting in person for his Vivitrol shot on April 6, 2023. If Goodman continues to be non-compliant in any way, the Court will be notified immediately.
